

charge. fast. anywhere.
Your mobile charging unit

Get connected anywhere

Extend your charging opportunities far beyond public charging stations! Electricity can be found almost anywhere - NRGkick makes it accessible for your electric car.

More than a Wallbox

NRGkick's overall dimensions were reduced to an absolute minimum. The wallbox has moved into the charging cable so that you can have your charging station always on board.

For your safety

An integrated residual current protection (AC & DC +6 mA) makes any power socket e-car safe.

Made in Austria

NRGkick is developed and manufactured in Austria. Best quality has highest priority.

3-phase charging

Full power for short charging times! NRGkick utilizes all 3 phases of the 400 V power grid and enables a charging power of up to 22 kW.

Adjustable charging current

The charging current can be flexibly adapted to any circumstances at the push of a button, even continuously during charging via your smartphone.

Theft-protected & tamper-proof

During charging your NRGkick is protected against theft and provides comprehensive security against unauthorized readjustment of the charging current by passer-by.

Plug adapters

The NRGkick plug adapters let the charging process succeed at any conventional socket, no matter if power current, Schuko or camping socket, 1- or 3-phase. The automatic adapter detection of the NRGkick makes the charging process safe and comfortable.

Integrated energy meter

NRGkick is permanently measuring current, voltage, energy and power at all phases and makes the charging process transparent.

Technical data

Vehicle connection:	Type 2 or Type 1 *
Nominal voltage:	230V / 400V 50Hz
Nominal current:	16A or 32A *
Max. charging power:	11 kW or 22 kW *
IP protection class:	IP66
Dimensions:	215 x 90 x 84 mm **
Total weight:	2,4 kg to 4 kg incl. cable

* Dependent on product variant

** Housing without cable

Smartphone app & Bluetooth

The NRGkick app provides extended control options and displays various measuring data on your smartphone. In this way charging costs and CO₂ savings can be evidenced.

Quality

NRGkick is certified by TÜV Austria.
